

## Ten MORE Reasons I Don't Trust You

Par TJ Five / Twitter : @TJ\_Five \_

Here are ten more reasons why I, as an ordinary Canadian, do not trust the overwhelming majority of you politicians and bureaucrats. You have botched virtually all your responses to COVID-19, and proven to be power-hungry, insensitive, incompetent, routinely dishonest and frequently stupid. I gave [ten reasons](#) why previously, and realized that I couldn't stop at just ten!

**1. You assured us, “[Two weeks to flatten the curve](#)” in March 2020. That was the first lie, the foundation for all the lies that followed.**

When you kept schools closed at the start of January 2021, you tried it again: “Two weeks to slow the spread.” The schools' doors were closed until mid-February. You had the gall to try this same mind-trick *again* in January 2022. You had fooled us enough times, and enough of us made enough of a stink to foil you this time. We have all paid the price of being fooled by your lies for almost two years. You will not fool us again.

**2. You repeatedly [said](#) that “Schools would be the last to close and the first to re-open.” That was a lie.**

You flip-flopped on school closures. You had no credible plan for dealing with very young children who simply should not be in front of screens for six or eight hours a day, or for supporting those with no access to devices or high-speed internet. Indeed, the [approx. 11% of Canadian households](#) without internet access were effectively ignored and their children left to fall behind. And, when schools closed, many malls and entertainment venues remained open and unaffected.

**3. Your models have been wrong time and time again.**

Your models took into account the interventions that they recommended, and [they were still wrong](#). At no point did you take public accountability of just how garbage your models were. And you haven't stopped modelling with the same garbage teams producing the same garbage models.

**4. You have ignored clear data from all the places that took different approaches to you.**

Even now, you continue to pretend that you cannot look to places like [Sweden](#), [South Africa](#), [Japan](#) and [American states](#) like Florida and learn anything relevant to managing your public health response in a sane, sensible, calm and holistic manner. You refuse to consider that maybe your decisions and interference have made the problems worse. For example, if fewer than 30% of South African adults are “vaccinated” and they've had a mild Omicron wave, why would *more* COVID jabs be the answer to reducing Omicron's impact in Ontario with well over 85% of adults “vaccinated”? Especially when those “vaccinated” are getting infected just as much as the “unvaccinated”?

**5. Even if we assume that the COVID jabs are safe, they are definitely *not* effective vaccines.**

[Parrotting the American authorities](#), you [told us](#) that the COVID jab prevents infection; it is not true. You told us that the COVID jab prevents transmission; it is not true. You told us that the COVID jab prevents hospitalization and death. It is not true. (In fact, [Ontario's own data indicate](#)<sup>1</sup> that from mid-Dec 2021, the COVID-jabbed were infected at higher rates than the un-jabbed.) So, not one of these claims is true, and yet you still want to force the COVID jab on everyone.

**6. You have been irresponsible fearmongers.**

Instead of [promoting](#) confident decision-making by the public by giving them clear, accurate information (and admitting when you did not have such information), you have promoted fear and dread of a disease, paralysing much of the population and making them feel helpless. This is grossly irresponsible. You could have given clear information about the level of risk in different groups of people – you did not do this. You could have encouraged people to make smart decisions about keeping themselves healthy (physically and mentally) and thereby reducing their risk (e.g. with appropriate supplements, adequate physical activity and safely maintaining direct social connections). You did none of these things.

### 7. You do not believe your own BS.

How often have you been un-masked and un-distanced when you thought the cameras were off? How many of you were quite fine with taking a “well-deserved” sun-break when everyone else was locked down under travel advisories? Most of you have never believed a word of your own doom-mongering. From [Justin Trudeau](#) and friends at the G7 shindig last summer, to [Doug Ford](#) letting his finance minister enjoy a Caribbean holiday in Dec 2020, the true measure of how seriously our leaders have taken the pandemic is how closely they followed the rules themselves, especially when they thought nobody was watching. If it were not such a tragic and shameful illustration of the contempt our ruling elites have for us, it would be hilarious that, despite [scandal after sleazy scandal](#), UK Prime Minister [Boris Johnson](#) might finally be toppled because of parties held at 10 Downing Street in May 2020, just when the UK Government was ramping up and enforcing its hard-line COVID restrictions.

### 8. You have trashed the Canadian Charter of Rights and Freedoms.

“The Canadian Charter of Rights and Freedoms guarantees the rights and freedoms set out in it subject only to such reasonable limits prescribed by law as can be demonstrably justified in a free and democratic society.” This is literally the second sentence [but the first clause] of the [Charter](#). You hid behind the “recommendations” and “guidance” of public health officials, and side-lined parliament and legislatures. You bypassed the law and didn't even attempt to show that any of the limits you progressively introduced in mostly futile attempts to limit a virus's spread were “demonstrably justified”. Against all the time-honoured [principles of public health](#) [essentially, *give people accurate, appropriate information to help them make their own health decisions*], you actually succeeded in terrifying Canadians so much that even [judges lost the capacity](#) to recognise that you had demonstrably justified nothing at all. And now so many of us can see that the Emperor is stark raving naked: right now, Justin Trudeau, [boosted](#) up to his eyeballs with COVID jab, [has COVID](#), but those of us who have declined the jab (and are probably immune having recovered from COVID) are still restricted from access to normal places and life, including places of worship, restaurants, planes and trains. This is illegal, irrational and immoral. No wonder the [only surviving drafter](#) of the Charter is suing the Canadian government.

### 9. You are [critical](#) of autocratic, authoritarian, despotic, tyrannical regimes – *unless they are autocratic, authoritarian, despotic, and tyrannical in the name of mandating vaccines.*

That is weird and suspicious. Have the vaccine manufacturers persuaded you, somehow?

### 10. You are slow to admit your mistakes, misrepresentations, misinformation, half-truths and lies, if you admit them at all.

There are so many examples that could be shared, but just this one will suffice. We all now know that COVID is spread primarily [by aerosols](#), not droplets, so [6-feet of distancing](#) and [porous cloth masks](#) are meaningless in stopping its spread. Yet everywhere these kinds of rules are still officially promoted. This indicates that you are lazy in both thought and action. And something tells me that most of you simply don't care.

<sup>1</sup> Ontario Official Covid-19 Data, available at <https://covid-19.ontario.ca/data/case-numbers-and-spread>. Retrieved January 9<sup>th</sup>, 2022. As of January 19<sup>th</sup>, 2022, the deaths-by-age data table is no longer available on this page, and the total Ontario deaths figure has been revised without any visible explanation from 11,970 [this excludes one death of unknown age] to 10,378 at January 9<sup>th</sup> [10,726 at January 18<sup>th</sup>].

<sup>1</sup> [The Lies Exposed by the Numbers: Fear, Misdirection, & Institutional Deaths \(An Investigative Report\)](#). Julius Ruechel. May 25, 2021. In this report, the author details how over 90% of all outbreak-related Covid-19 deaths [at that stage these made up almost 60% of all Covid-19 deaths] were in Long-term Care Homes.
